Activities

1. Intensive Examination of Goodstrains
2. Sick line & ROH

- Freight examination facilities at FL have been developed. 04 Examination lines, 01 stabling line and slickline shed has been constructed. Work for intensive examination of BLC and departmental stock started since 04.10.16.
- Wagon which cannot be attended in yard is marked sick for sick line attention. Routine Overhaul (ROH) is carried out periodically after 24 months of POH. ROH in FL started on 21.12.16 in existing sick line till separate ROH infrastructure is developed at FL.
