

STI Ajmer

System Technical School Ajmer (Supervisors Training Centre, Ajmer) renamed as Specialized Training Institute, was inaugurated on 10th of July 1957. Ajmer City was chosen for establishing a Specialized Training Institute, as it is the only city where all the important workshops of the then Western Railway are situated i.e. Diesel Locomotive workshop, Wagon shop, Carriage shop, Electrical Power House, Electric Production Workshop and Signal workshop.

Specialised Training Institute, Ajmer is one of the most prestigious training centre of Indian Railways. It has the pride of imparting training to all Supervisors of North Western Railway and Western Railway of Mechanical & Electrical Departments.

About us

The training institute is presently engaged in training for the supervisors under the following classification

- 1) Initial training
- 2) Promotional training
- 3) Refresher training
- 4) Special training

The duration of the above programme is as per training module issued by Railway board in 2020 and for electrical 2022 also. An officer designated as Principal/STI, is assisted by a number of Sr. Lecturer/Lecturer etc., who is responsible for training activities.

The training institute is one of the main training institute for North West and Western Railway. As such it is governed by rules, regulations and instructions of Govt. of India controlled by NWR HQ. Jaipur.

The training institute consists of 08 class rooms, 06 labs (Computer, RAC, C&W, Welding, Diesel & Electrical) and a Technical library. This training institute has a double storey hostel building with capacity of 110 beds, big hall used as recreation room.

The product of STI/AII is training which is given to various categories of Mech./Elect. Supervisors of N.W. Rly. / W. Rly. The customers of STI/AII are Sr. DME of all division, diesel loco sheds along with Dy. DME of Western & North Western Railway workshops.

AIMS

Our country has a tremendous scope for continuous growth in the field of Railway Transportation that too with the positive competition with road transportation. Hence technology up-gradation, improved productivity, enhanced safety etc. are the keys to take over the challenge of growth in the true spirit. The training is the only mode which can prepare the newly inducted railway supervisors for making them a positive asset to the organization.

- More over the refresher courses are meant for updating the knowledge of the supervisors representing the middle management as per the latest technical instructions from R.D.S.O. and Railway Board from time to time. The supervisors can even have an idea that why and on what ground the instructions have been issued to enable them to implement the same in the field in the best of its sprit.
- Further the field units are having their own needs for imparting training in various fields like Welding Technology, Supervisors Development Programme, Computer know how, Internal Quality Audit Course plan for ISO as well as pre-selection training of the reserved candidates appearing in LDCE examination.

OUR OBJECTIVES

The main objectives of Specialized Training Institute, Ajmer is to upgrade the –

- A) Knowledge, skill and positive attitude as per the need of Railway Organization
- B) To upgrade and refresh the supervisors with latest development in C&W DSL and maintenance.
- C) To promote safety consciousness, professional competency.
- D) To development quality skill in day to day working.

Faculty

Name of Faculty (S/Shri)	Desig.	Date of Joining at STI	Qualification	Subjects being taught	Specialization
Amar Chand Gaharwal	Principal	22.08.22	Degree in Mech. Engg.	-	-
